

When we met the homeowners at their home, we realized why they needed our help. Their home had a drive-thru kitchen. The kitchen sink was in full view as you walked into the front door and the foyer dumped you into their narrow galley-style kitchen flanked by the family room on one side and the dining room on the other. The master bathroom needed a more functional layout and updating.

A French door was added and centered with the Foyer drawing you into the space and bringing the outdoors in. The kitchen was relocated into the family room space and a mudroom with custom built-ins and storage was added off the kitchen from the garage. A family room was created by removing a wall between the existing dining room and front office.

A wet bar, beverage center and banquette were added in the previous kitchen space. The gorgeous kitchen features cabinets with a gray glaze and waterfall edge quartz countertops and a custom wood bar countertop. Copper hardware and hood add character to an already gorgeous and unique kitchen. The master bathroom now features a large zero-entry shower and unique finishes, and the closet has a new barn door.

#### **DIRECTIONS**

From Hwy 540, take Hwy 50/Creedmoor Road exit and head North on Creedmoor Road, turn left onto Norwood Road, turn right on Old Creedmoor Road, turn right onto Appaloosa Run East, in ½ mile, home will be on your left.
