

We renovated the kitchen and dining areas by removing a load bearing wall and pantry; and widened the opening to the living room. The kitchen includes all new cabinetry and countertops. We scraped the popcorn ceilings on the first floor and painted the entire first floor. We toothed in hardwood flooring where the wall and previous cabinetry were located, then refinished all hardwoods on the first floor. We wrapped the LVL in matching hardwood then finished to match backsplash. The backsplash is LVT that looks like wood.

We also gutted and remodeled the master bath complete with black finish fixtures. We reframed the exterior wall to include a custom niche in the shower.

DIRECTIONS

Coming from RDU take 540 east. Exit Falls of the Neuse Rd. Go straight through light onto Thorpshire Drive. Take 1st left onto Carrington Drive. House will be ¼ - ½ mile on right. Coming from downtown take Wake Forrest Road north which will become Falls of the Neuse. Take right onto Thorpshire Drive (at intersection with 540). Take 1st left onto Carrington Drive. House will be approximately ¼ - ½ mile on right.
