

Moving back to Raleigh after many years, our client found a 1960's home in a great neighborhood, but it needed major updating. It had the original kitchen with dark knotty pine wood paneling, small baths, and worn floors.

The remodeling project began as a conversation to determine the desired features of the finished home: a new kitchen, new master bath, laundry, pantry, and add a ½ bath. A beautiful, open-design kitchen was created with a large island and breakfast bar. The master and hall baths were enlarged, rebuilt, and designed to include a walk-in closet in the MBR. A clever reconfiguration of the living room created new space for a half bath and a closet large enough to house not only the washer and dryer, but also room for pantry shelving.

The design was finalized and thorough specifications were documented to ensure that communication was clear and no detail was missed. Those specifications were then directly transferred to purchase orders with detailed checklists and plugged into a scheduling system. This process meant that the renovation was completed in the shortest amount of time possible, while keeping the highest quality of work. We love the details! Come see the results!

DIRECTIONS

From I-440 Beltline, Take the Lake Boone Trail exit and turn right onto Lake Boone Trail. Turn right on Blue Ridge Rd. Continue to Edwards Mill Rd. Take right on Edwards Mill Rd. (at Harris Teeter) Take left on Laurel Hills Rd. Left on Boxwood Rd. Right on Spruce Dr. Home is on the right at 4112 Spruce Dr.
